Company FAQ

50 questions about employment policies and BeeDesk
Effective September 30, 2026

What is this document for

This FAQ answers common employee questions about the fictional Beebyte Technologies and its BeeDesk portal. It summarizes Employee Handbook HR-001, Leave Policy HR-002, Remote Work Policy HR-003, and Product Guide PROD-001. Use the named source for detailed conditions and approvals.

Is this a real company policy

No. All policies, benefits, contacts, and product behavior are fictional training information for a Company Knowledge Assistant RAG project. This FAQ does not describe actual employment entitlements. The example addresses are not real support channels.

Which document has priority

HR-002 governs leave decisions, HR-003 governs remote work, HR-001 covers general employment procedures, and PROD-001 explains portal behavior. This FAQ does not override those documents. A portal button or a search result does not create an extra benefit.

How is the FAQ organized

Page 2 Employment and onboarding
Page 3 Annual leave
Page 4 Sick casual and intern leave
Page 5 Requests and leave calculations
Page 6 Remote eligibility and schedules
Page 7 Remote availability and outages
Page 8 Pay learning and expenses
Page 9 Security and equipment
Page 10 BeeDesk and missing information

What is the document version

FAQ-001, version 1.1, effective September 30, 2026. People Operations owns this FAQ. It replaces FAQ version 1.0 with expanded questions and examples. Guide versions and BeeDesk product version are different identifiers; the described BeeDesk product remains version 1.0.

Employment and Onboarding

When do employees work

The standard week is Sunday through Thursday, 9:00 AM to 6:00 PM Bangladesh time. Lunch is 1:00 PM to 2:00 PM. Friday and Saturday are weekly days off. Approved remote work keeps the same hours. See HR-001 and HR-003.

How long is probation

Full-time probation lasts 90 calendar days. The manager may extend it once by up to 30 calendar days with written notice before the original period ends. HR records completion. Do not assume that a missing portal status proves probation has ended. See HR-001.

What happens on the first day

HR creates the BeeDesk account and IT provides a company laptop. The manager explains initial work and reporting lines. Company email and approved access are set up through IT. Complete security onboarding within seven calendar days of joining and report missing access instead of borrowing another person's account.

Who decides my leave

The assigned line manager approves normal leave requests. A project lead does not automatically have that authority, and an IT administrator does not acquire it from administrator access. Unpaid leave also needs HR approval. Ask HR to confirm the reporting relationship if routing seems wrong.

Do contractors receive these benefits

The full-time and intern benefits in the policies do not automatically apply to contractors. Contractors follow their service agreements and applicable security requirements. This document does not define contractor leave balances, learning allowances, or resignation notice periods. Do not infer those terms from an employee example.

Annual Leave

How many annual days do full-time employees receive

Full-time employees receive 18 paid annual leave days for a complete calendar year. Midyear joiners earn 1.5 days for each full calendar month of service, credited at month end. Annual leave accrues during probation but can be used only after probation is completed. See HR-002.

How is a partial joining month counted

Expanded HR-002 defines a full calendar month as employment for every calendar day in that month. A July 15 joiner earns no annual credit for July. August through December provides five complete months, giving 7.5 days before subtracting approved usage.

Can I round a fractional balance up

No. A 2.5-day balance is not three days. Expanded HR-002 retains fractional balances and permits whole-day or half-day requests of 0.5 day. If a three-day request exceeds the available balance, reduce it or discuss separately approved unpaid leave rather than silently changing the category.

How much annual leave carries over

Full-time employees may carry up to five unused annual days into the next year. Use them by March 31; remaining carried days expire on April 1. Eight unused days means five carry and three expire. A 3.5-day balance carries 3.5, not five.

Does early approval let me use carried days in April

No. The use deadline is March 31. A request for April cannot use expired carried days merely because it was submitted or approved earlier. Expanded HR-002 uses valid carried days before current-year annual days. The expiration affects the remaining carried component rather than the current-year entitlement.

Sick Casual and Intern Leave

What sick leave do full-time employees get

Full-time employees receive 10 paid sick days each calendar year, available from the first day without monthly accrual. Unused sick leave does not carry over. Report illness to the manager by 9:30 AM on the first absence day and submit the formal request within two working days after returning.

When is a medical certificate required

A certificate is required for three or more consecutive scheduled working days of sick leave, for both full-time employees and interns. Thursday, Sunday, and Monday can be three consecutive scheduled working days despite the weekend. Count the work schedule and published holidays, not simply elapsed calendar days.

What is casual leave

Full-time employees receive six paid casual days per calendar year, available from the first day, for urgent personal matters. One request may cover no more than two consecutive scheduled working days. Splitting a continuous three-day absence into separate requests does not remove that limit. Casual leave expires on December 31.

What leave do interns receive

Interns earn one paid personal day for each completed month of internship and receive five paid sick days for the entire internship. They do not receive annual or casual leave. Personal credits post at month end and expire when the internship ends. See HR-002 for its expanded monthly-anniversary counting rule.

Does intern sick leave reset in January

No. The five sick days cover the entire internship. An intern who uses two days in December and continues the same internship in January has three left, not a new five-day allowance. Extending the same internship does not automatically create another sick grant.

Requests and Leave Calculations

How early should planned leave be requested

Submit annual leave or planned intern personal leave at least five working days before it starts. The line manager responds within two working days. A submitted request remains Pending until approved; silence does not mean permission. Follow up with the manager and HR if the decision is delayed.

What should I do for an urgent absence

For sick or urgent casual leave, notify the manager by 9:30 AM on the first day and submit the BeeDesk request within two working days after returning. If illness prevents notification, a family member may notify HR. Notification and the formal request are separate steps.

Do weekends consume leave balance

No under the standard schedule. A Thursday-through-Monday absence charges Thursday, Sunday, and Monday: three working days, if there is no company holiday. Friday and Saturday do not consume leave. If Sunday is a published company holiday, the interval charges two days instead. See HR-002.

How do I cancel approved leave

For Approved leave, select Request Cancellation in BeeDesk. The manager must approve cancellation before the balance is restored. Pending requests can be cancelled directly. Cancelling a carried annual day does not extend its March 31 use deadline. Contact HR if only part of an approved request changes.

What if I run out of paid leave

There is no automatic extra paid allowance or automatic unpaid conversion. Unpaid leave requires both the manager and HR to approve it before the absence. For a balance discrepancy, send HR the request ID, dates, category, and screenshot. Do not create duplicate requests to compensate for an error.

Remote Eligibility and Schedules

Who may work remotely

Full-time employees who have completed probation may request up to two remote working days per week with manager approval. Interns and employees on probation normally work in the office. They need a temporary written exception approved by both HR and the manager before remote work. See HR-003.

What must a temporary exception specify

It must state a start date, end date, and reason. Expanded HR-003 also identifies the authorized dates or pattern. Both HR and manager approval are required. The exception does not create permanent eligibility or automatically renew when it ends. Changed exception dates or patterns need the required confirmations.

When should I submit next week's schedule

Submit proposed dates in BeeDesk by Thursday at 3:00 PM Bangladesh time. The manager responds by 5:00 PM that Thursday. Enter the work location and check meetings and coverage. If approval is missing, follow the office schedule rather than treating submission as authorization.

Can unused remote days carry forward

No. Using only one day this week does not allow three next week. The standard maximum remains two within each Sunday-through-Thursday working week. A holiday or approved leave does not create an extra remote credit. Remote work is an authorized work location, not a leave balance.

Can the manager require office attendance

Yes, for a client meeting or team workshop with at least one working day of notice. Update the approved schedule accordingly. A displaced remote day does not automatically transfer to another date; obtain recorded approval for a replacement. See HR-003 for schedule changes.

Remote Availability and Outages

Are core hours the whole workday

No. Standard hours remain 9:00 AM to 6:00 PM, with lunch from 1:00 PM to 2:00 PM. Remote employees must be reachable on chat from 10:00 AM to 4:00 PM excluding lunch, but that core availability window does not shorten the scheduled workday.

What if I am sick on an approved remote day

If illness prevents work, follow HR-002 sick leave reporting and request procedures. A remote approval does not authorize a day off or prove attendance. Notify the manager and ensure the records show the actual absence rather than a complete remote workday.

How quickly must I report an outage

Notify the line manager within 15 minutes of an internet or power outage that prevents work. Use an approved backup connection if available. If it lasts more than one hour, agree whether to move to the office or request leave. An outage is not automatically approved leave.

Can I change my remote location

Remote work is permitted within Bangladesh when workspace, privacy, and availability requirements are satisfied. Update the manager before changing the approved location. Domestic permission does not make every public workspace suitable. Continue to use the company laptop, required VPN, and approved storage.

May I work from another country

Only with written HR and manager approval before travel. The standard two-day domestic allowance alone does not authorize international remote work. Expanded HR-003 records country and authorized dates. A time-zone difference does not automatically change Bangladesh working hours, and no international travel budget is defined.

Pay Learning and Expenses

When is salary paid

Salary is paid in BDT by bank transfer on the last working day of each month. Report a correction to payroll@beebyte.example within five working days of payment with the relevant month and evidence. Individual salaries, bonus amounts, tax formulas, and a guaranteed correction payment date are not defined here.

What is the course budget

After probation, full-time employees may request up to BDT 8,000 per calendar year for manager-approved courses. Approval must precede purchase. It is a maximum allowance, not automatic cash. Unused funds do not carry over. Interns do not receive this standard full-time course budget.

How do I submit a business expense

Obtain approval before purchase. Keep the receipt and project reference and submit approved expenses in BeeDesk within 15 calendar days of purchase. A receipt does not replace approval. Retain the claim reference for follow-up and avoid duplicate claims. HR-001 does not define a guaranteed expense payment date.

How much internet expense is reimbursed

Eligible full-time employees with an approved recurring remote schedule may claim actual home internet costs up to BDT 1,000 per month. Submit the bill by the fifth working day of the following month. A BDT 750 bill supports BDT 750; a BDT 1,400 bill supports at most BDT 1,000.

Can interns or coworking costs qualify

Interns are not eligible for the internet allowance. HR-003 explicitly does not reimburse coworking fees. It does not define furniture, electricity, international roaming, or a second-connection allowance. A temporary remote exception does not itself establish the recurring schedule needed for internet eligibility.

Security and Equipment

What device should I use for customer work

Use the company laptop and approved accounts. Remote access to internal systems requires the company VPN. Screen lock must activate after five minutes of inactivity. Do not use shared public computers or personal cloud storage for customer files. Contact IT for an approved solution when equipment fails.

Can I paste private documents into public AI tools

No. HR-001 prohibits pasting customer secrets, passwords, or private documents into public AI tools. Ask the manager and Security if approval status is unclear. Review generated output before a customer commitment or technical change. The documents do not list approved AI products.

When do I report a suspected security incident

Report suspected phishing, exposed credentials, or unauthorized access to security@beebyte.example within one hour of discovery. Do not wait for proof or routine support hours. Preserve relevant messages and follow Security instructions rather than deleting evidence or investigating through unapproved methods.

What if a laptop is lost

Report lost equipment to IT within two hours of discovery. If customer data exposure or unauthorized access may be involved, also report the suspected incident to Security within one hour. These are separate deadlines; an IT notification alone does not automatically satisfy the Security report.

What happens when I leave the company

Full-time employees provide 30 calendar days of resignation notice; interns provide seven. Send written notice to HR and the manager, hand over open tasks, and return company equipment by the last working day. Do not retain private company files. Final settlement timing and leave encashment are not defined.

BeeDesk and Missing Information

What is BeeDesk and how do I activate access

BeeDesk is the fictional internal portal, product version 1.0, for attendance, leave, remote schedules, expenses, and documents. Sign in with a company email at https://beedesk.beebyte.example. Invitation links expire after 48 hours; IT provides replacements. Multi-factor authentication is required. The example portal is not a deployed service.

Why is my account locked

Five failed sign-in attempts trigger a 15-minute lockout. Check the company email and use Reset Password or contact IT if access remains blocked. Never ask a coworker to share credentials. The guide does not define a bypass code, guaranteed recovery time, or mobile authentication alternative.

Why does a PDF not appear in search

BeeDesk search matches titles and extracted text from text-based PDFs. Version 1.0 has no OCR; scanned PDFs may upload without searchable page text. HR uploads PDF documents no larger than 10 MB, and password-protected PDFs are rejected. A clear-looking scan is not proof of extractable text.

Where do I get help

BeeDesk support is available Sunday through Thursday, 9:00 AM to 6:00 PM Bangladesh time at support@beebyte.example. Include the request ID, issue description, reproduction steps, and a screenshot without passwords. IT handles accounts; HR handles policy and balances; Payroll handles payment questions. All contacts are fictional.

What should an assistant say when evidence is missing

Explain that the documents do not contain enough information and direct the question to the relevant owner. Medical insurance, parental or bereavement leave, revenue, individual salary, product pricing, and support response guarantees are not defined. An unspecified topic is different from an explicit exclusion such as coworking reimbursement. BeeDesk has no native mobile app or offline mode.
